## **LEADING LADIES: WOMEN & LAW EXHIBITION**

We honor 100 years of women's suffrage in Germany while also celebrating the 100<sup>th</sup> anniversary of passing the 19<sup>th</sup> Amendment in U.S. Congress on June 4, 1919. The first part of the exhibition depicts the difficult path women faced on their way to obtaining suffrage in the U.S. and highlights significant historic moments and leading female figures in U.S. politics and law. You further receive information on gender equality as we feature quotes, infographics, and statistics about issues such as gender discrimination, the wage gap, and access to education. A central part of our exhibition is dedicated to female trailblazers, who paved the way for women's rights and equality as lawyers, judges and politicians, including the four female U.S. Supreme Court Justices who have served or are still serving on the high court.

## **LEADING LADIES: WOMEN & LAW MIDISSAGE & FILM SCREENING**

Introductory Remarks in German by Christiane Pyka and Pia Herzan, DAZ Stuttgart

Film Screening of the 2018 documentary about the 2<sup>nd</sup> female U.S. Supreme Court Justice (OmU)

The introductory remarks cover the most significant aspects of the exhibition "Leading Ladies: Women & Law", while the documentary follows one of the Supreme Court's most "notorious" justices and her journey. At a time where educational opportunities for women were scarce, this trailblazer defied the odds. She is a known 'dissenter' on the bench as well as a pop culture icon. At the age of 86, she has developed a breathtaking legal legacy, while being a mother, wife and lifelong advocate for women's rights.

Snacks & drinks are provided.

**FREE ADMISSION.**

## **THE (REALLY) LONG MARCH THROUGH THE INSTITUTIONS: WHY 100 YEARS OF U.S. FEMALE SUFFRAGE ISN'T ENOUGH**

**LECTURE & DISCUSSION WITH PROF. JOYCE MUSHABEN, PHD, UNIVERSITY OF MISSOURI-ST. LOUIS**

This talk addresses "the lessons learned" across three waves of feminism in the U.S. dating back to 1920, then considers what younger cohorts might do to "level the political playing field" and combat the anti-woman backlash unleashed by the Trump White House since 2017. While the 2018 midterm elections boosted women's physical presence in the halls of power, the real barriers to change are rooted in structural factors, starting with the electoral system.

In cooperation with: Fachbereich Frauen und Politik, Landeszentrale für politische Bildung BW; Institut für Literaturwissenschaft Amerikanische Literatur und Kultur, Universität Stuttgart.
